HASTINGS, Dr = Medical Health Officer, Toronto = October 1918 (087)

57

October 15th, 1918

Dr. Hastings,
Medical Health Officer,
Toronto.

Dear Dr. Hastings:

I should like to have a talk with you with regard to the situation that arises on account of the influenza. I know that last week you were of opinion that the University should not close, and this view was strongly held also by Dean Clarke. The Dean is absent from the city and I should like to discuss the matter over the telephone with you as you are doubtless very busy. I shall be in my office from a quarter past twelve to-day. Would you be kind enough to ring me up any time between that and one so that I may have a talk with you about the matter ?

With kind regards, I am,

Yours sincerely,

President.
